

Gtk::ApplicationWindow

```
classDiagram
    class GtkApplicationWindow["Gtk::ApplicationWindow"]
    class GTBWindow["GTB::Window"]
    GTBWindow --|> GtkApplicationWindow
```

The diagram illustrates an inheritance relationship. At the top is a white rectangular box with a thin grey border containing the text 'Gtk::ApplicationWindow'. Below it is a grey rectangular box with a thin black border containing the text 'GTB::Window'. A solid blue arrow points vertically upwards from the 'GTB::Window' box to the 'Gtk::ApplicationWindow' box, indicating that 'GTB::Window' inherits from 'Gtk::ApplicationWindow'.

GTB::Window
